PROFESSIONAL EXPERIENCE

MELODIX | AUSTIN, TX | 2022 – PRESENT
Web Developer

Melodix is a thriving platform that connects local musicians to potential listeners and opportunities. Full Stack developer contributes to creating an efficient, intuitive, and aesthetically pleasing web application.

- **Web Design Innovation:** Masterminded a fully responsive web design that faithfully adhered to comprehensive Figma design specifications, forging an accessible, visually magnetic user interface that amplified site traffic and user engagement.
- **Test-Driven Development:** Advocated a rigorous approach of Test-Driven Development (TDD) deploying Jest, Storybook, and Cypress to boost test coverage north of 90%, and reduce time spent troubleshooting.

CYPHEREYE | SAN FRANCISCO, CA | 2022 – PRESENT
Mobile Developer

CypherEye is a breakthrough platform offering secure authentication capabilities. Mobile Developer delivers a unique service proposition by developing demo applications with an uncompromised focus on security and user experience.

- **Codebase Optimization:** Revitalized code into componentized, manageable structures, boosting modularity, maintainability, and efficiency of the codebase, which culminated an expedited development timeline, thus shortening product delivery cycles.

WEPAIR | AUSTIN, TX | 2021 – 2022
Freelance Web Developer

WePair is a dynamic platform providing communications between families and their children/grandchildren during Covid.

- **API Integration:** Implemented APIs from trusted providers like Stripe and PayPal, constructing a secure, and user-friendly recurring payment system; enhanced customer trust, streamlined transactions, and ultimately drove an increase in active users.

PROJECTS

DEV ISSUE TRACKING bit.ly/devissrepo | bit.ly/devisstrk

Dev Issue Tracking is an invaluable web application that empowers software development teams to efficiently track and manage issues, bugs, and features, fostering organized and effective workflows.

LAMPLIGHT bit.ly/emprep | bit.ly/emplight

Employ Lamplight is a revolutionary job search tool designed to show the path to employment opportunities.

- **Leveraging Lamplist Method**: By incorporating the Lamplist method, the application aids users in finding potential places of employment, offering an edge in the challenging job market; streamlined job discovery, increasing user success rates.
